

InfiniBand Silicon Developer Mellanox Technologies, Ltd. Announces Key Addition to Executive Team

Barry Zwarenstein Appointed Chief Financial Officer at InfiniBand Start Up

SANTA CLARA, CA and YOKNEAM, ISRAEL – January 15, 2001 – Mellanox Technologies, Ltd., a leading InfiniBand semiconductor company for the server, communications, and data storage markets that comprise the Internet data center, today announced the appointment of Barry Zwarenstein to the position of Vice President and Chief Financial Officer. Reporting to Chief Executive Officer Eyal Waldman, Barry will manage the company's financial operations and play a critical role in guiding the company's future growth.

Mr. Zwarenstein comes to Mellanox from Acuson Corporation, a leading provider of medical ultrasound equipment, where he was Vice President and Chief Financial Officer. Prior to Acuson, Mr. Zwarenstein held a similar position at Logitech S.A. His extensive financial experience, both in the United States and abroad includes posts as Chief Financial Officer for FMC Corporation's European Regional Headquarters in Brussels, Belgium, and as controller for various FMC Corporation operating divisions in North America and Europe. Mr. Zwarenstein earned his master's degree from the Wharton School of Business, University of Pennsylvania. He also holds a bachelor's degree from the University of Natal, South Africa.

“Barry’s background and experience are ideally suited to help steer Mellanox’s future growth,” said Eyal Waldman, CEO of Mellanox. “We need a strong leader with experience in technology and international finance and Barry brings these qualities to our executive management team. He will be essential in coordinating our global operations and ongoing success.”

About Mellanox Technologies

Mellanox Technologies Ltd., is a fabless semiconductor company providing InfiniBand solutions for the server, communications, and data storage markets. Mellanox is a leader in the InfiniBand semiconductor market, offering switches, Host Channel Adapters (HCAs), and Target Channel Adapters (TCAs). The company has raised more than \$33 million to date and has strong corporate and venture backing from Intel Capital, Raza Venture Management, Sequoia Capital, and US Venture Partners. Mellanox currently has more than 140 employees in multiple sites worldwide. The company’s business operations, sales, marketing, and customer support are headquartered in Santa Clara, CA; with the design, engineering, software, system validation, and quality and reliability operations based in Israel. For more information on Mellanox, visit www.mellanox.com.

The InfiniBand architecture is an industry-standard interconnect technology that provides new levels of performance and reliability for the next generation of servers and I/O devices. Mellanox is a member company of the InfiniBand Trade Association, a nonprofit organization dedicated to developing and promoting the InfiniBand architecture. More information about the InfiniBand Trade Association and specification can be found at www.InfiniBandTA.org.
