

Mellanox Technologies to Present at JP Morgan Technology and Telecom Conference

SANTA CLARA, CALIFORNIA, and YOKNEAM, ISRAEL - May 04, 2004 - Mellanox® Technologies Ltd., the leader in InfiniBandSM solutions, today announced that Chairman and CEO, Eyal Waldman, will present at the JP Morgan 32nd Annual Technology & Telecom conference, on Thursday, May 6, 2004, at 10:00 a.m. PDT. The four-day conference began May 3rd at the Westin St. Francis in San Francisco. The conference is a premier Wall Street investor event focused exclusively on the new wave of growth companies defining the technology industry, and more than 250 companies are expected to deliver presentations to more than 3,500 investors.

Eyal Waldman will discuss the role of InfiniBand in the Data Center, High Performance Compute Clusters (HPCC), communications and storage markets with special emphasis on the availability of complete InfiniBand solutions from all of the first tier server vendors. The presentation will highlight the price performance benefits and ease of use of InfiniBand technology for critical data center applications.

About InfiniBand

InfiniBand is the only 10 Gb/sec ultra low latency clustering, communication, storage and embedded interconnect in the market today. InfiniBand, based on an industry standard, provides the most robust data center interconnect solution available with reliability, availability, serviceability and manageability features designed from the ground up. These features greatly reduce total cost of ownership for the data center. Low cost InfiniBand Interconnect solutions provide 10Gb/sec RDMA transfers delivering up to 25 times the performance of Ethernet, offer unprecedented performance and density, and outperform proprietary interconnects at a fraction of the cost. With 30

Gb/sec products shipping currently, InfiniBand is at least a generation ahead of competing fabric technologies today and in the foreseeable future.

About Mellanox

Mellanox is the leading supplier of InfiniBand semiconductors, providing complete solutions including switches, host channel adapters, and target channel adapters to the server, communications, data storage, and embedded markets. Mellanox Technologies has delivered more than 200,000 InfiniBand ports over three generations of 10 Gb/sec InfiniBand devices including the InfiniBridge, InfiniHost III, and InfiniScale III devices. The company has strong backing from corporate investors including Dell, IBM, Intel Capital, Quanta Computers, Sun Microsystems, and Vitesse as well as, strong venture backing from Bessemer Venture Partners, Raza Venture Management, Sequoia Capital, US Venture Partners, and others. The company has major offices located in Santa Clara, CA, Yokneam and Tel Aviv Israel
