

Mellanox Selected as One of Top 100 Emerging Companies by Computerworld Magazine

Leading InfiniBand Silicon Vendor Recognized for Innovative Contributions to the IT Industry and Corporate Computing

SANTA CLARA, CA and YOKNEAM, ISRAEL — November 28, 2001 — Mellanox Technologies, Ltd., the leading provider of InfiniBandSM silicon, announced today its selection by Computerworld Magazine as one of the Top 100 Emerging Companies for 2002. Computerworld recognized Mellanox for making significant innovative contributions to the IT industry and corporate computing and as a company worth watching in the year ahead. Computerworld selected Mellanox based on product innovation, financial stability, managerial excellence, and solving real problems facing IT managers. Mellanox provides innovative InfiniBridgeTM and InfiniScaleTM semiconductors, which are designed to improve performance and reduce IT costs in enterprise and Internet data centers through the deployment of InfiniBand technology.

"In selecting the Computerworld Top 100 emerging companies for 2002, the editors and panel members emphasized innovation," said Maryfran Johnson, editor in chief of Computerworld.

"These companies are creating products or services that present a new and creative approach to an IT issue, while demonstrating that they have the foundation, vision, and strategy to succeed in the years ahead."

"We are pleased that Computerworld has recognized the demonstrable benefits our InfiniBand technology provides the IT community," said Kevin Deierling, Vice President, Product Marketing for Mellanox. "The selection recognizes that our innovative devices are providing a viable solution in the emerging market for InfiniBand fabrics that unify clustering, communications, and storage in the data center."

About Mellanox Technologies

Mellanox is the leading supplier of InfiniBand semiconductors, providing Switches, Host Channel Adapters, and Target Channel Adapters to the server, communications, and data storage markets. In January 2001, Mellanox Technologies delivered the InfiniBridge MT21108, the first 1X/4X InfiniBand device to market, and is now shipping second generation InfiniScale silicon. The company has raised more than \$33 million to date and has strong corporate and venture backing from Intel Capital, Raza Venture Management, Sequoia Capital, and US Venture Partners. In May 2001, Mellanox was selected by the Red Herring Magazine as one of the 50 most important private companies in the world. Mellanox currently has more than 200 employees in multiple sites worldwide. The company's business operations, sales, marketing, and customer support are headquartered in Santa Clara, CA; with the design, engineering, software, system validation, and quality and reliability operations based in Israel.
